****Summary****

Passionate and adaptable Computer Science Engineering student with a strong foundation in

****Skills****

- * ****Programming:**** Python, C/C++, JavaScript
- * ****Operating Systems:**** Linux
- * ****Web Development:**** Flask (Python), Django (MVT), FastAPI, HTML/CSS
- * ****Database:**** DBMS/SQL
- * ****Version Control:**** Git, GitHub
- * ****Other:**** Raspberry Pi (experience desirable), CAD (knowledge helpful), 3D Printing (know

****Projects****

- * ****Voice with Visual Assistant:**** Implemented a virtual assistant capable of interpreting visu
- * ****Game of Life:**** Developed a Python implementation of the classic Game of Life simulation
- * ****Flask Project:**** Created a blog site using the Flask framework.
- * ****Django Project:**** Developed an e-commerce site using the Django framework.

****Experience****

- * ****Drone Customization Skills (Targeted):**** Actively working to develop skills related to the c
 - * LiDAR
 - * Infrared Imaging
 - * Power Distribution
 - * Mechanical Design
- * Demonstrated through personal projects.

****Education****

- * ****Bachelor of Technology in Computer Science**** | IPS - CTM | SGPA: 8.89 | CGPA: 8.0
- * ****CBSE 12th**** | Kendriya Vidyalaya No.1 | 80%
- * ****CBSE 10th**** | Kendriya Vidyalaya No.1 | 81.6%

****Achievements & Activities****

- * Decoder1 Rank: 730
- * GitHub Badges: 4
- * GeeksforGeeks Institute Rank: 17
- * HackerRank:
 - * 5-Star Coder (C)
 - * 5-Star Coder (Python)
 - * 4-Star Coder (CPP)
